SCRAP-BAG.

FRENCH LACE.—The worker who could not get this lace right will find that she has not put her "thread over" after slipping the two stitches over the knitted one and before knitting the "4" in the sixth row. Putting the thread over there will make the pattern correct.

Notes from a Worker.—Miss L Van writes that she has found the wide Tunisian lace and insertion charming for white window shades. She has made a scalloped edge which she thinks prettier than the pattern given. She adds: "One must use common sense about size of needles and thread; the same pattern often looks entirely different when knit of different materials and with different needles. It is a matter of taste, tell "M. E. S." about the Tunisian and Normandy laces. The latter is extremely pretty knit of 70 linen thread. I intend to have everything "laced" in the house, apparei curtains, pillow shams, etc. This knitting department of The Tribune is doing an aesthetic work more lasting than the dado and sunflower craze."

Wants.—L. V. wants directions for making Basket, Double-Stat, Acorn, Braided, Loose Shell and Sea-Wave stitches. Some of these she will find in The Tribune Extras.—E. E. wishes to know how to crochet a lady's collar with feather-edge braid.—A. H. W. wishes directions for making mittens in shell-pattern for a child of six years.—N. E. B. writes: "I have been anxiously looking for an insertion to match that wide Normandy lace pattern of Miss Newton's. I will be very thankful to her if she will contribute such an insertion pattern. I have knit some of her Normandy lace and think it very beautiful; so do all who have seen it. I knit it with Coates's No. 60 white thread. If Miss Newton favors me with a pattern, I intend to put the insertion and lace together for a lace collar. I would like the insertion about the same width as the lace."

PRICE OF LACE.—There is no regular price for knitted face, as there is no established demand. It will depend whofly on the beauty of the face and the desire of the purchaser.

LINEN THERAD.—Marshall's unbleached linen thread may be procured of any large dealer in fancy goods. Ivory and other needles may be procured by number from T. Goetze & Co., 256 Grand-st., N. Y.

SCIENTIFIC ABSTRACTION.

SCIENTIFIC ABSTRACTION.

From The Buffalo Commercial.

Griffin, Edison's private secretary, once told me a funnily characteristic story of the manner in which Edison came to get married. The idea was first suggested by an intimate friend who made the point that he needed a mistress to preside over his big house, which was being managed by a house-keeper and several servants. I dare say the idea had never occurred to him before, for , be it known he is the shyest and most bashful of men, but he seemed pleased with the proposition, and timidly inquired whom he should marry. The triend somewhat testily replied, "anyone"; that a man who had so little sentiment in his soul as to ask such a question ought to be satisfied with anything that wore a petiticoat and was decent, and concluded by saying: "There are a number of nice girls employed in your factory over yonder; they aren't especially refined or cultivated. I must confess, but they are respectable, and that is the main consideration after all."

Edison looked them all over, and after making

25th row: Slip 1, knit 2, over twice, purl 2 together, knit 2, over, narrow, cover, narrow (* over, and so did several others, but no Edison. The bride, who knew his peculiarities, finally drove back to the house and waited her liege lord's pleasure. She never saw him again for lorty-eight hours. Immersed in some idea that had suddenly occurred to him, he became oblivious to brides, honeymoons or anything else.

SATURDAY, June 10-P. M. To-day's stock market was undisturbed by rumors of failures or of any impending troubles. Yet the dealings in shares were even more erratic than they were yesterday and there were more frequent alternations of weakness and strength as those qualities are measured by the changes in figures. The business of the day was 105,000 shares smaller than was yesterday's, baving amounted only to 277,000 shares. Lake Shore and Central and Hudson shares are looked to as the leaders of the speculation, and their exceptional firmness on comparatively small transactions unquestionably exerted no small influence in steadying the market at the moments of its greatest weakness. Lake Shore still commands a premium for its use-to-day 1-32@3-64 -and the "point" that it and Central and Hudson will be supported by the management of the roads is widely circulated and is generally lieved. Central and Hudson closed 3s higher than it did last evening, while Lake Shore, after selling up to 1023s, closed with a final gam of 34 at 1017s The active stocks of the day were Denver and Ric Grande, Louisville and Nashville, Missouri Pacific and the Northern Pacifics, and all of them, although closing with some recoveries from the lowest figures, were lower than yesterday's final prices. In the last five minutes of business there was a noisy rally in prices, but the market closed feverish and unsettled.

The transactions in Government bonds at the boards amounted only to \$10,000, and business was quiet at the offices of the larger dealers. There were no changes in the quotations, which are as fol-

EPPS' COCOA.

"By a thorough knowledge of the natural laws which govern his operations of discostion and nutrition, and by a careful application of the fine properties of well-selected cocos, Mr. Epps has provided our broadrast tables with a delicative flavored beverage which may save us many heavy doctors bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist right produced to the such as the property continuous and the management of desage. Hundreds of subtle maladies are feeding around us ready to attack wherever there is a weak point. We may excape many a fatal shaft by keeping our selves well fortified with pure blood and a properly nourished frame."—(Civil Sevrice Gazette.
